TECHNICAL SKILLS

Programming Languages: Java, JavaScript, CSharp Basics

Frameworks and Libraries: Spring Framework, Spring Boot, Hibernate, React

Other Skills: SQL, Kafka, Design Patterns, Microservices, Data Structures and Algorithms, Pega Robotics

EXPERIENCE

Software Developer (Full Stack)

Oct 2020 – Present

Virtusa Technologies

Hyderabad

- Experienced software engineer proficient in **Pega Robotics** and **Java Full Stack** with over 3 years of hands-on experience.
- Involved in the **end-to-end development** of automation solutions, including design, development, testing, and production support.
- Designed and Implemented 20+ automation bots, resulting in significant savings of **14.3 FTE** for clients.
- Successfully completed multiple proof-of-concept projects demonstrating proficiency in **Java, APIs and Spring Boot** with **Spring Framework and React**.
- Strong **problem-solving skills** and ability to adapt to new technologies and challenges within less time.
- Excellent communication and collaboration skills, able to work effectively in cross-functional teams.

Game Developer Intern

July 2019 - Oct 2019

Inkwall Technologies

Hyderabad

- Learned about designing games, programming and game mechanics using Construct2 tool.
- Actively and Diligently involved in projects and tasks assigned.

PROJECTS

ARC Bank Application | *Java, Spring-Boot, React, MySQL, Kafka, REST API*

- Built a Full-stack web application using with Spring-Boot serving REST APIs with React as the fronted.
- Established a secure authentication service using Spring Security and JWT tokens.
- Implemented a notification service using Kafka for real-time communication and Orchestrated the integration of diverse payment gateway for user convenience.
- Utilized React Router for seamless navigation and a dynamic user interface, increasing application usability.

ARC School Web Application | *Java, Spring MVC, Spring JPA, Thymeleaf*

- Developed a Web Application that allows Students to Login, Enroll for the courses and Admin Portal for admin.
- Fully functional Web application with Authorization and Authentication from Back-end Database.
- Integrated Thymeleaf into Spring MVC, achieving a 40% efficiency by frontend template reusability.
- Integrated Spring Security, Spring Data JPA and Spring MVC along with MySQL Database.

Pega Dispute, Visa Increase, Combine Projects | *Pega Robotics, Pega Robot Manager*

- Created Automation Bots that resolves disputes, increases limit, add and delete users and perform payment adjustments and reversals.
- Designed and deployed an automation bot integrating multiple modular tasks, resulting in a 30% improvement in code reusability and a 20% enhancement in overall software quality.
- Integrated Web based and Windows based Back-end Application to manage data flow in both directions.
- Integration of Bots to Robot Manager to be able to scale and handle around 8000+ requests per month.

CERTIFICATIONS AND ACHIEVEMENTS

- Oracle Certified Java Professional (OCJP)
- Master Spring 6, Spring Boot 3, REST, JPA, Hibernate (Udemy)
- Master Data Structures, Algorithms and System Design (BossCoder Academy)
- Pega Certified Robotics System Architect (PCRSA)
- Solved 300 plus problems on platform like (Leetcode.)

EDUCATION

Vidya Jyothi Institute of Technology

Hyderabad, India

Bachelor of Technology in Information Technology — 9.34 CGPA

2020
